Albuquerque, NM | darpoling248@outlook.com | (505) 918-2986 | linkedin.com/in/darla-poling/

Professional Summary

Business Analyst with a foundation in statistical analysis, quality control, and process improvement, backed by a Bachelor's degree in Statistics and technical training in Computer Science. Skilled at translating business needs into functional requirements, leveraging data to drive decision-making, and communicating insights across technical and non-technical stakeholders. Experienced in applying analytical tools, SQL, and AI-assisted workflows to deliver measurable operational improvements.

Work Experience

Business Analyst – *Speridian Technologies* | Jun. 2026 – Current

- Gather and document business requirements through stakeholder interviews, translating them into clear functional and non-functional specifications for development teams.
- Develop process flows, user stories, and acceptance criteria to support agile delivery and align technical solutions with business objectives.
- Partner with cross-functional teams to identify process gaps, recommend data-driven improvements, and validate solutions through UAT.
- Leverage SQL and data visualization tools to analyze business performance and support stakeholder reporting.

Quality Control Inspector- *Roses Southwest Papers* | Feb. 2025 – Mar. 2026

- Compiled and analyzed data for multiple daily reports, modeling production efficiency metrics using specialized software, including MD Excel and Accellos.
- Collaborated with operators and mechanics to translate complex operational data into multiple actionable recommendations for leadership, bridging technical and non-technical teams.
- Facilitated daily operations through product changeovers, rejected raw material processing, and defect reduction, leading to an approximately 5% decrease in a specific type of error.

Stockroom Manager - *Dd's Discounts* | March 2024 - August 2024

- Oversaw daily stockroom operations, inventory organization, and cash office responsibilities, including deposit preparation, financial documentation, and managing shipment schedules.
- Maintained operational records, including tracking, organizing, and recording shipment information accurately.
- Communicated and assisted with scheduling for the stockroom employees to optimize merchandise processing and unloading procedures, contributing to a 10% reduction in stocking time.

Education

University of New Mexico | *Bachelor's Degree in Statistics with Minor in Mathematics*

- Volunteer Treasurer, Albuquerque DSA (2025)

Central New Mexico Community College | *Associate's Degree in Computer Science*
