

Darla Poling

PROFESSIONAL SUMMARY

Data analyst with a Bachelor's degree in Statistics and hands-on experience using SQL and Python to explore, clean, and analyze complex datasets. Skilled in root-cause and hypothesis-driven analysis, translating technical findings into clear, actionable recommendations for both technical and non-technical stakeholders. Hands on experience with statistical modeling, machine learning techniques, and probability.

WORK EXPERIENCE

Business Analyst (Training Program) — Speridian Technologies *Jun 2026 – Sep 2026*

- Completed an intensive Business Analyst training engagement, performing data modeling, analysis, and visualization on large, complex datasets to support project and change-management decisions, presenting findings clearly to both technical and non-technical audiences.
- Supported a retrospective end-to-end data analysis project of a state level initiative impacting approximately 30 employees/stakeholders.
- Gather and translate stakeholder requirements into functional and technical specifications, ensuring data-driven initiatives are scoped accurately from the outset.
- Conduct as-is/to-be process modeling, gap analysis, and stakeholder analysis, using SQL including subqueries and unions, to identify problems and recommend data-driven solutions.

Quality & Operations Specialist — Roses Southwest Papers *Feb 2025 – Mar 2026*

- Assisted with analyzing and designing a production solution that reduced a specific defect category by approximately 5%.
- Compiled and analyzed data from complex datasets for daily production reports, communicating data insights for executive audiences through storytelling and visualization, while maintaining data integrity.
- Applied quality assurance techniques with attention to detail to identify trends and defects to validate data accuracy and integrity across production systems.
- Translated operational data into actionable recommendations for leadership, serving as liaison between technical and non-technical teams.

Stockroom Manager — Dd's Discounts *Mar 2024 – Aug 2024*

- Coordinated staff scheduling, maintained operatorial records, and collaborated with process changes that contributed to a 10% reduction in stocking time.
- Was responsible for cash office duties including documentation, deposit preparation, and financial reporting.
- Managed the stockroom to efficiently organize labor and resources.

SKILLS

Programming & Query Languages: Python (Pandas), SQL, R, MATLAB, Java

Data Analysis & Tools: Advanced Excel, data cleaning and validation, statistical reporting, Quarto, LaTeX, Cloud Platforms (Azure, AWS)

Statistical Methods: Hypothesis testing, regression analysis, root-cause analysis, model evaluation

Other: Cross-functional stakeholder communication, Power BI, Google Analytics, Microsoft Azure, Git/GitHub

EDUCATION

University of New Mexico (2026) — B.S., Statistics, Minor in Mathematics

Central New Mexico Community College (2022) — A.A.S., Computer Science

Central New Mexico Community College (2022) — A.A., Liberal Arts

Central New Mexico Community College (2022) — A.A., Integrated Studies

Central New Mexico Community College (2022) — Certificate, Health, Wellness & Public Safety

Central New Mexico Community College (2022) — Certificate, General Studies
